Dear Sir:

As required by the 43 CFR 3809 regulations mining operations on public lands (unpatented mining claims) must file a Notice for disturbances for less than 5 acres or Plan-of-Operations for disturbances greater than 5 acres. A recent examination of the Aragonite mill site and Aragonite claims revealed ongoing operations for which no Notice or Plan-of-Operations has been received. It was noted that about 1 1/2 acres had been recently disturbed on the Aragonite claims adjacent to the patented claims near Hastings Pass along with the existing operation on the Aragonite mill site claims. Within 30 days you must submit a Notice or Plan-of-Operations (outlines enclosed). It appears that most of the disturbance at the Araganite mill site was prior to the promulgation of the 43 CFR 3809 regulations which would indicate that a notice meets the regulatory requirments, however, if you anticipate new disturbances in excess of 5 acres, a Plan-of-Operation would be required. If you have any questions, please contact Steve Brooks at 524-5348.

Reclamation should in general consist of recontouring, seeding and harrowing of the seed bed. It is recommended that a field examination be conducted to help develop more specific reclamation measures. Please contact Steve Brooks at (801) 977-4371 to arrange a field examination or if you need other assistance.

Sincerely,

HOWARD HEDRICK
